Data protection complaint

[REDACTED] (IMI Nr.: A56ID 124562)

Subject: Final Decision:

The complainant [REDACTED] raised on 16. December 2019 against [REDACTED] (controller) a complaint and claimed that the controller had not responded to its request of 7 November 2019 (Art. 15 GDPR „Right of access by the data subject”).

The controller replied by letter of 11. December 2020 in the ongoing proceedings before the Data Protection Authority, to the complainant's right of access by the complainant (which subsequently eliminated the alleged infringement of the non-existence of the right of access). Thus, an amicable agreement could be reached between the complainant and the respondent.

The complainant did not dispute the receipt of this letter in the parties granted to it and, despite a request to that effect, did not submit any further submissions. A corresponding forwarding report is attached to the act and there is no error message from an e-mail server.

Accordingly, the appeal proceedings had to be closed informally (without notice).
